

Dragon Slayers Hepatitis-C Supplement Program Guidelines

The Dragon Slayers supplement program is designed to assist those who are Hepatitis-C positive and either going through Interferon treatment or recently completed (6 months or less) treatment. The program consists of:

1. Participants receive two (2) cases of bottled water and, a one-month supply, two (2) containers of protein powder per month, which can be picked up at Clintwood Pharmacy, Clinton St., Binghamton, New York.
2. Participants will be required to sign for all supplements received on a monthly basis. Only water and protein powder are covered under the supplement program. No other items will be authorized, no exceptions.
3. In order to receive the supplements, participants must currently be going through Interferon treatment or have completed treatment within the past 6 months.
4. Participants receiving supplements must participate actively in the Dragon Slayers support group, which meets every other Tuesday from 6-8 p.m. at Trinity Memorial Church, Binghamton, New York.
5. If participant stops attending the Dragon Slayers support group, they will automatically be removed from the supplement program.
6. The Southern Tier AIDS Program reserves the right to enroll, remove or suspend participants from the supplement program.
7. The Southern Tier AIDS Program will provide a list of active participants and all updates to Clintwood Pharmacy.
8. Due to funding restrictions, the supplement program may be temporarily unavailable to participants. At such time, Clintwood Pharmacy will be notified and the supplement program will be suspended. The Southern Tier AIDS Program will make every effort to contact participants if there are any issues with the supplement program.
